Meeting New Requirements...
Facing New Challenges...
Breaking New Grounds in Public Address...

ENSURING RELIABILITY...
THROUGH INNOVATION...
SINCE 1940

When Dreams come True...!

Mr. A.N. Ahuja must have had something like this in mind, when he dreamt of being acknowledged as the largest manufacturer of public address equipment in India.

Built on a 2 acre plot, covering over 1.10 lac sq. feet, the new Ahuja Factory at Phase-II, Noida (picture above) commenced operations in the second half of 2011. The sheer size of the factory is a testimonial to Ahuja's commitment to providing the widest range of Public Address Equipment to an ever expanding market and varied customer preferences with the motto "ON TIME, EVERY TIME".

We invite all our wholesalers and dealers to come and visit the new factory.
